Work Experience

High School Professor	School Center Velenje Velenje, Slovenia	2021 - Present
• Taught various subjects including AI, Web Development, Multimedia, and Computer Networks. • Collaborated with EU initiatives and provided specialized training for educators. • Organized projects like Game Jam events, an RPG computer game and an AI-assisted exam correction system.		
Technical Assistant	Ministry of Public Administration Slovenia Ljubljana, Slovenia	2017 - 2018
• Contributed to modernizing IT infrastructure within Slovenian government facilities. • Designed software solutions to enhance archival processes and streamline organizational efficiency.		
Software Developer Intern	Mega M d.o.o. Velenje, Slovenia	2019 - 2019
• Developed an online shopping platform and a mobile app for a grocery chain to provide users with loyalty points and discount information, increasing user engagement.		
Web Developer Intern	bits & bytes Birkirkara, Malta	Spring 2015
• Erasmus student exchange program participant. • Contributed to the design and development of an online platform for an electronic device retailer.		
Freelance Work • Web Development: Created websites, portfolios, e-commerce platforms and blogs. • Video and Photo Editing: Edited promotional materials, handling photo and video formats.		
Projects		
Augmented Reality Projects		
ARnet • Allows users to explore and simulate network topology, device types, IP networking, and routing, serving as a valuable educational tool for students.		
The AR Tourist Guide • Designed and developed for a Slovenian municipality Šoštanj to visualize the former appearance of the submerged village of Družmirje, enriching tourists' understanding of local history and culture.		
Mobile Games • Developed and published various mobile games and RPGs as a hobby, refining my skills and deepening my understanding of graphics pipelines and optimization techniques.
