Portfolio: alesspital.github.io

Email: ales.spital@gmail.com

Summary

Unity developer (M.Sc. Computer Science) with hands-on experience shipping XR and mobile applications. Strong C# and OOP foundations, Git, agile delivery, and clear documentation (UML/diagrams). Comfortable ramping up in existing codebases, building flexible and reusable systems, and polishing UI under tight performance constraints.

- VR4LL 2.0 (EU-funded): Lead Developer; shipped VR language-learning modules in Unity/XR with robust interaction systems and performance-focused delivery on standalone headsets.
- ARnet: Published AR educational app on Google Play; interactive 3D network simulation with guided lessons and production hardening.
- Shipped UI-heavy .NET/Xamarin apps and internal tools; strong integration mindset (REST, client-server fundamentals) and pragmatic stakeholder iteration.

Selected Projects

VR4LL 2.0 - EU-funded VR language-learning product (Unity/XR) Lead Developer

- Built interaction-driven learning modules and iterated with stakeholders to keep onboarding smooth and intuitive.
- Kept delivery stable on standalone headsets through disciplined debugging, profiling, and performance checks.

ARnet - Published AR educational app (Unity) - Google Play Solo build and release

- Designed an end-to-end learning flow around interactive 3D content, with guided lessons and clear UX.
- Hardened for real users: stability, edge-case handling, and production release discipline.

Skills

Core	C#, Unity, .NET, OOP/SOLID, debugging, Git
Unity	Interaction systems, ScriptableObjects, coroutines, uGUI, profiling and mobile/XR optimization
Mobile	Android release experience, Xamarin.Forms/XAML, iOS/Android familiarity, REST integrations
Delivery	Agile (Scrum/Kanban), reusable architecture, UML/diagrams, fast ramp-up, English (fluent)

Work Experience

AI Workshop Instructor and Advisor 2025

AI workshops / Telemach, JobLab | Slovenia

- Ran hands-on workshops and discovery sessions; translated needs into MVP scope, workflows, and clear documentation for adoption.

High School Professor 2021-2024

School Center Velenje | Slovenia

- Taught 200+ students across AI, Web, Multimedia, and Networks; built a Python AI grading assistant (~20% time reduction) and supervised software projects.

Technical Assistant 2019-2020

Ministry of Public Administration | Slovenia

- Built internal workflow tools (Xamarin.Forms + XAML UI + MySQL) and improved support processes across 100+ facilities (30-40% faster issue resolution).

Software Developer Intern 2018-2019

Mega M d.o.o. | Slovenia

- Built an e-commerce platform and cross-platform mobile app (Xamarin.Forms/XAML); implemented catalogs, offers, loyalty, and REST integrations.

Education

M.Sc. Computer Science and IT - University of Maribor 2020-2024

B.Sc. Computer Science and IT - University of Maribor 2016-2020
